# Machine Tool Club - Voice of the Industry

Daniel Nauer,  
President of MTC

The "Machine Tool Club" was formed in 2001 by industry leaders within the metalworking and associated industries. Its aim is to unify and strengthen the industry players with regard to related trade exhibitions and provide a voice for the industry players.

The ultimate goal is to have one strong trade show in each of the ASEAN countries - with the "Machine Tool Club" negotiating on behalf of its member preferential rates for exhibition space, booth design and shipping .

The Machine tool club held its 6<sup>TH</sup> Annual AGM on the 8<sup>th</sup> of December. The Agenda included a review of events in 2006 and also an outlook of events and plans for 2007 and beyond.

Council member Mr Paul Gallagher of Renishaw informed members of the successful exhibitions attended in 2006 and also some new benefits negotiated on behalf of members. This included preferential advertising rates for MTC members with leading publishers in the region. For more details on preferential advertising rates, please email [sec@machinetoolclub.com](mailto:sec@machinetoolclub.com).
